This webpage includes the slides from my SUNY CDO conference presentation on June 10th. The slides provide strategies for mining the “free” Internet. Also included are websites chosen as representative “best” sources for free (or nearly free) information for career development. Resources for career officers as well as students are included. Sites provided cover a number of categories, including:

- Alerts
- Business
- Diversity
- International
- Language-specific
- Non-profit / government
- Rankings
- Salary information
- Temp / contract positions
- Trends
