How To Find Course Reserves:

1. Go to http://library.cornell.edu and choose “Course Help” at left below the Library Catalog Search box.

2. Under “Search Courses and Reserves,” enter your course number and press “GO”.

3. On the next page, click on the title of the item you wish to borrow (if the title is shown under the heading “Electronic Reserves,” click the title to view the item in your web browser via Blackboard).

4. The following page will display:
   - Which library’s reserve shelf is holding the item.
   - Whether the item is currently available.
   - The item’s call number.

Take the call number to the circulation desk and a staff member will retrieve the item for you.

Write your call numbers here:

Reserves must be returned to the loaning library
No phone or on-line renewals
